

2024.01 Company profile

marbledworks

About

Marbledworks is a German design studio, founded by Maximilian Huber and Dominic Kim. We redefine stonemasonry, challenging conventional typologies. Our mindset reflects our identity, how we understand and meet the world around us. Our commitment to quality is unwavering. Our holistic philosophy stands apart – one that speaks through the serene language of intellectual sophistication, adopt geometric abstraction, enabled by using artisanal methods, cutting-edge manufacturing, and processing.

Offering

01 Product series

Own product designs characterized
by superior detailing

02 Custom Designs

Concept and realization of custom
designs for in- and outdoors

JELLY transforms spaces with its nature-inspired design. Its organic, round shape and smooth surface encourage tactile exploration. Its solid build and refined details ensure durability and timelessness. By blending form and function, JELLY re-shapes living environments, infusing your design and craftsmanship collection with artisanal natural components.

HEX is not merely an object; it is a space-creating component. From its composition to its design, it heralds a new haptic universe that transcends functionality. A fusion of high-quality materials and German craftsmanship offers a contemporary industrial aesthetic with hexagonal profiles and soft stone tops. This modular table range features an aluminum frame seamlessly integrated, ensuring easy assembly and modification. The design facilitates flat-pack delivery and adhesive-free maintenance.

Bespoke Design

- Design options are sketched out after agreeing on a design brief
- Material tests are visualized to illustrate different options
- 3D models are created for visualization to test designs in a live environment
- Optimization based on material availability and production/shipping feasibility
- Goal is to achieve an optimal design solution within practical constraints
- Collaboration and feedback are crucial throughout the whole process

Bespoke Design

Bespoke Design

Why work with us

- **Focus on customization and high level of versatility to meet customer requirements**
- **Capabilities from concept to production and project coordination**
- **Exclusive partnership with F.M. Huber GmbH in alliance with Antolini SPA incl.**
 - **Infrastructure and state of the art production facilities for large-scale natural stone production**
 - **90+ years of family run business and in-house experience in handling and manufacturing stone**
 - **Broad and exclusive material selection with a wide range in stock (3000mm in a single slab possible)**
 - **Exclusive treatments for stain resistance in different finishes (matte, leather, polished)**
 - **Quick turnaround time due to different sourcing channels**
- **Strong network of local and regional partners in various manufacturing areas**

Bios

Maximilian Huber, born in Germany in 1989, is a co-founder of Marbledworks. With ten years of experience in international Corporate & Investment Banks, most recently as a Vice President at JP Morgan, he led the firm's expansion in Austria's midcap market. He also manages business development and operations at F.M. Huber GmbH long-established stone processing company in Bavaria, specializing in intricate applications and exclusive materials. Maximilian holds a B.A. in Economics from LMU Munich (2013).

Dominic Kim, born in South Korea in 1987, is a German-Korean architect, designer and editor based in Zurich. He is co-founder of Marbledworks and established Superposition, a platform for architectural culture and exchange. Dominic worked as a project manager at Caruso St. John Architects in Zurich from 2017 to 2021, where he served as a project manager, contributing to numerous projects of varying scales. He has been invited as a critic at ETH Zurich and has taught at TU Munich. He holds an M.A. in Architecture from the Technical University of Munich (2016).
